## France Molecular Sieve

## Wear Resistant Ceramic Separate Valve

### Oxygen generator function:

1. The negative ion function is 6 million/cm<sup>3</sup>
2. Timing function up to 180 minutes
3. Power saving mode (22% saving compared with peers)
4. Sleep mode
5. Automatic shutdown protection
6. Infrared remote control
7. Oxygen accumulation
8. System oxygen function
9. Support 2 people breathing oxygen at the same time
10. Comprehensive touch screen control function
11. The oxygen flow rate corresponds to the oxygen concentration: 1L 90%, 2L 75%, 3L 65%, 4L 50%, 5L 55%, 6L 40% 7L 30%

# DEDAKJ

## Features of this oxygen generator:

1. Portable oxygen generator, using PSA (pressure swing adsorption) technology, can get high purity oxygen.
2. Especially suitable for home care, outdoor travel, cars, etc.
3. Effectively improve the sleep of middle-aged and elderly people

## Quality specifications:

Size: 13.39 \* 7.09 \* 12.21 inches

Style: oxygen bar

Ambient temperature: 0-40°C

Atmospheric pressure range: 96-106kpa

Air volume: 51-150m1503; / H

Oxygen concentration (%): Oxygen concentration 30%-90%

Product net weight: 14.33 pounds

Rated power (W): 130W

Applied voltage: AC110V

## working principle:

This machine is powered by AC110V power supply and uses air as raw material. Use French original high-quality molecular sieve, adsorbed by PSA at room temperature

## The package includes:

- 1 \* Oxygen concentrator
- 1 \* 3 meters oxygen pipe (including water storage equipment)
- 1 \* Ear hook type oxygen inhaler
- 1 \* Nasal oxygen tube
- 1 \* Remote control
- 1 \* Power cord
- 1 \* Nasal oxygen outlet
- 1 \* Air filter and plastic cover
- 1 \* Oxygen outlet and fuse
- 1 \* User manual and certificate
- 1 \* Warranty card
